Enjoy the Park Life with Hilltop Park.

Hilltop Park, the community's latest parkland is set to commence construction later this year. Once complete it will provide 7,500sqm of active and passive open space for every resident to enjoy.

Residents will be delighted to hear that Hilltop Park has been designed to highlight the project's unique outlook and undulating land while providing a friendly environment for families and sports enthusiasts.

Featuring a pavilion which will become one of the community's highest vantage points offering spectacular views over the surrounds, Hilltop Park includes also a multi-purpose kick about space and several sitting areas to socialise or picnic with friends.

This new development will be accompanied by a stunning view of the future 1,000 hectares Quarry Hills regional park that creates a peaceful surround for the Fairview community. This beautiful open space will be visible from many locations throughout Hilltop Park, forming the final touch to a perfect relaxing environment for residents.
