## Fairview on the home stretch with less than 100 lots left!

**We are proud and excited to announce that Fairview is selling faster than expected as buyers have rushed to secure a home-site at our popular community. With less than 100 lots left, opportunity to secure one of our final blocks in the community is now limited.**

Since the first land release, more than 1000 residents have flocked to this vibrant community to enjoy a relaxed lifestyle that combines park-style living with the many conveniences of nearby schools, public transport, shopping and recreational facilities.

Selling over 400 lots since its launch, Fairview has consistently achieved above-average sales in a highly coveted region.

Located amongst rolling hills and picturesque surrounds, Fairview continues to attract buyers aspiring to a relaxing lifestyle with its elevated land and secluded lots bordering hectares of stunning parklands and greenery.

Adding further appeal for residents, Hilltop Park, the community's latest parkland, is scheduled to commence construction later this year.

With less than 100 lots left until this popular community sells out for good, please visit the land sales office today or contact one of our friendly sales consultants to see how you can make Fairview your new home!
